

ALASD WTEF ORDINANCE NO. 8**AN ORDINANCE OF THE ALEXANDRIA LAKE AREA SANITARY DISTRICT ESTABLISHING A FEE TO BE USED FOR THE FULL OR PARTIAL PAYMENT OF THE COSTS OF EXPANDING THE DISTRICTS WASTEWATER TREATMENT FACILITIES.**

The Board of the Alexandria Lake Area Sanitary District does ordain:

Section I.

Preamble: The Board initially approved the Wastewater Treatment Expansion Fee, hereinafter referred to as “WTEF”, on May 11, 2005, and subsequently revised the WTEF on August 14, 2013, based on the Wastewater Feasibility Study prepared by Brown and Caldwell. The Feasibility Study determined an expansion of the Alexandria Lake Area Sanitary District (ALASD) wastewater treatment facility (WWTF) was necessary and the estimated cost of such expansion was 19.1 million dollars and calculated an applicable WTEF. The ALASD Board also reviewed the comments of a Citizens Advisory Committee, and the Board considered the oral and written comments made at and after a public hearing to consider a wastewater facility expansion held on February 2, 2005. This current WTEF is equal to \$2,500 per equivalent dwelling unit (EDU).

In addition, ALASD completed and adopted the *2021 Comprehensive Wastewater Services Plan (Hazen)*. The plan identified and recommended extensive improvements to ALASD’s collection system infrastructure. The replacement and reinvestment in the collection system is critical to the long-term planning and sustainability of the ALASD.

Section II.

Wastewater Treatment Expansion Fee. A WTEF shall be charged for all new connections to public sanitary. This includes all new connections to public sanitary sewer located within the boundaries of the Alexandria Lake Area Sanitary District (ALASD), or within local units of government that are not ALASD members but whose wastewater is treated at the ALASD Wastewater Treatment Facility pursuant to a “service contract”. The WTEF will also apply to any and all connections made within a local government unit that will be served by service contract in the future except that if a service contract provides for a different method of payment, the provisions of the service contract shall apply, and this ordinance shall not apply.

Section III.

Payment of Fee. Full payment of the WTEF shall be made to the ALASD prior to the issuance of a sanitary sewer connection permit. Payment of the WTEF may be made at any time prior to permit approval and issuance. Installation of a private service line from the public sanitary sewer to the property line will not require the payment of a WTEF. If a WTEF has been paid upon the issuance of a

WTEF ORDINANCE

permit, and if no connection to sanitary sewer is made pursuant to such permit, a refund of the WTEF may be requested and the WTEF will be refunded in full without interest. If a refund is made, the permit shall be terminated. A WTEF shall be required if a new permit for the same connection is applied.

Section IV

Change in Status. If a sewer connection has been made and if a WTEF has been collected, no additional connection charges shall be required unless there is a substantial change in the flow or other major change in the use of the connected premises. If such substantial change is made, the ALASD will determine if the change is substantial and requires additional WTEF. The ALASD will monitor building permits and metered usage of commercial and industrial customers to determine if changes are warranted. New or expanded commercial or industrial usage resulting from new or building expansion will be charged for the additional usage based upon the EDU schedule provided in this ordinance. EDU(s) will be calculated based on increases over the usage at the time the initial WTEF was charged.

Section V.

Failure to Pay WTEF . Upon failure to pay the WTEF as herein required the ALASD will immediately invoice the owner of the property for the full WTEF. Payment shall be due within 30 days of the invoice date. If payment is not received the ALASD may certify the WTEF to the Douglas County Auditor for collection with real estate taxes in accordance with Minnesota Statutes Chapter 444.075, Subdivision 3e.

Section VI.

Fee Assignment. All WTEF fees collected may only be used to pay for capital debt retirement and related fees, or capital improvements identified and itemized in the ALASD Capital Improvement Plan included in the annual budget approved by the Board.

WTEF ORDINANCE

Section VII.

Local Government Units. This ordinance will have no impact on the right of local government units to levy special assessment, connection charges, or SAC charges on locally owned public sanitary sewer.

Section VIII.

Effective Date. This ordinance shall be effective upon its passage and publication.

Section IX.

Appeal. Property owners believing that a WTEF should not be charged, or that the amount of the WTEF is incorrect shall have the opportunity to a hearing before the ALASD board. Prior to the hearing the property owner must place the request in writing with a detailed explanation of why the WTEF should not be charged or is the incorrect amount.

Section X.

Single-Family Dwelling. Residential connections shall be charged one WTEF per single family dwelling. One (1) equivalent dwelling unit (EDU) shall be considered equal to 5,000 gallons discharge per month. EDU values for facilities other than single family dwellings shall be established based on the schedule contained in this ordinance.

Section XI.

Industrial Users. Industrial connections shall be those users that have a discharge that exceeds a monthly average of 25,000 gallons/day or discharge a categorical pollutant. One (1) WTEF shall be charged for each new or expanded EDU as defined in the above section. Expansion of flow or loading from an industry above the monthly maximum limits established in the Significant Industrial User (SIU) Agreement will not be permitted until full payment to the ALASD of the WTEF for the increased capacity has been collected. Upon payment of the WTEF, the SIU Agreement shall be amended to reflect the expanded monthly maximum capacity.

Section XII.

Commercial Users. Any connection to the public sanitary sewer that is not a single-family dwelling or industrial facility shall be considered a commercial account. The WTEF for commercial connections shall be based upon the EDU value, and determined as follows:
